- [Surface Hub 2S advances Microsoft's vision to empower teams in today's modern workplace](#)
Our best ideas come from when we're working as a team – focused, engaged, connected. When Surface started, we were a team of 12 all working together in a secret lab in Redmond. Collaboration was a constant and it was simple – at least in terms of location. Today, we're a team spread across the globe, working closely with groups across Microsoft not just to build devices, but to create connected and complete experiences. Surface Hub 2S is a product built to engage and empower teams by bridging digital and physical workspaces, because how we work continues to evolve every ...

- [Windows 10 Tip: What's new in Skype for Windows 10 PCs](#)
If it's been a minute since you've used Skype, there are several new features that have come out since the [Windows 10 October 2018 Update](#): background blurring, OneDrive integration and live captions and subtitles. **Background blur** Did you ever video chat on Skype and the person you're talking to seems to be looking at something behind you? Maybe it's a pile of laundry, your cat photobombing the conversation or a distracting painting. Whatever it is, it's taking the focus off you. These and many other examples are why [Skype](#) ...
